■ PERSONAL INFORMATION

Currently, I am an undergraduate student majoring in chemistry in Hongyi Honor School. I have been interested in chemistry since Junior 3, when I had my first chemistry lesson. Therefore, I learned some knowledge of Chemistry Olympic Competition by myself in my high school. And in college, I choose to major in chemistry and work hard, dreaming of becoming an advanced worker in chemistry.

In life, I am an outgoing boy who likes to make friends. In my spare time, I often like to listen to some classical music and attend some concerts from time to time. As for sports, I am a long distance runner and want to finish at least one marathon in my Bachelor life. I am also a crazy fan of some film and TV series like Star Wars, Doctor Who, etc.
